

K-Love is played in our community of Casper and it is the only station I listen to. I have it on in my home all day long even if I am not there. It is so peaceful and enjoying. I believe that the local community will be very lost and angry without this radio station especially if it were to be displaced by an LPFM broadcaster. K-love is in the public interest as many of the churches and other Christian Organizations listen to this. It provides the community another place to go and listen to something good and worthwhile. Generations to come need this radio station and will benefit from it. K-love is a great role model via radio for all types of people and ages. Please do not take them off the air. Sincerely, Lisa Scott.
